Chennai, Nov 2 : Ahead of Deepavali, the Tamil Nadu government has disbursed Rs 167.12 crore towards bonus and ex-gratia payments to 1,06,001 employees of the State Transport Corporations for the financial year 2025–26, following directions from Chief Minister C. Joseph Vijay. Transport Minister Vijay Tamizhan Parthiban announced on Monday that the Deepavali bonus had been credited directly to the bank accounts of eligible employees across the state. In an official statement, the government said the decision was aimed at recognising the contribution of transport workers and extending financial benefits to them ahead of the festival.

The government highlighted the crucial role played by the eight State Transport Corporations in ensuring affordable and accessible transportation, particularly for people living in rural and economically disadvantaged areas. According to the statement, the corporations collectively operate 21,333 buses across more than 10,172 routes, connecting villages, towns and major urban centres throughout Tamil Nadu. These services cater to approximately 2.18 crore passengers daily, making the state-run transport network one of the most important components of Tamil Nadu's public infrastructure. Significantly, nearly 72 per cent of passengers travel either free of charge or at concessional fares under various government-supported schemes. The government said these concessions have helped improve mobility among women, students, senior citizens and other eligible sections of society while ensuring that public transportation remains affordable. The statement emphasised that transport employees play an indispensable role in sustaining daily operations despite the challenges involved in managing such a vast network.

Recognising their contribution, the Chief Minister directed the authorities to release the Deepavali bonus and ex-gratia payments for the 2025–26 financial year. The government said the financial assistance was intended to motivate employees, acknowledge their services and strengthen morale across the transport corporations. The payments are expected to provide financial relief to thousands of transport workers and their families ahead of Deepavali celebrations. The government also underlined the importance of an efficient public transport system in supporting economic activity, facilitating workforce mobility and connecting rural communities with employment, education and healthcare facilities. With millions depending on government buses every day, the administration reiterated its commitment to maintaining reliable transport services while recognising the contribution.

Democracy murdered during municipal polls in Andhra : Jagan

YSR Congress Party president and former Chief Minister Y.S. Jagan Mohan Reddy on Sunday alleged that democracy was murdered in broad daylight during the Municipal elections in Andhra Pradesh as TDP workers occupied polling booths, drove out YSRCP agents and resorted to widespread rigging with police support. He told IANS that YSRCP agents were not allowed in 70 out of the 80 polling booths in Pulivendula. “In a democracy, if opposition party agents are not allowed to sit inside polling booths, who will identify the voters? No one will be there to identify them because YSRCP polling agents have either been forcibly removed from the booths or denied entry into the polling stations,” he said. YS Jagan, who arrived in his home town of Pulivendula in YSR Kadapa district to cast his vote in municipal elections, sat on protest in front of the Returning Officer’s office, demanding a repoll. “Is this democracy? Are we even functioning in a democratic system?” asked Jagan, who was accompanied by the displaced agents of the party.

He alleged that TDP workers occupied booths from as early as 4 a.m., intimidated voters and prevented YSRCP agents from entering polling stations. Chairperson candidate Prameelamma was attacked, polling agent Sunanda suffered a fractured hand, and voters arriving at polling centres were stopped, threatened and sent back after their voter slips were forcibly taken away. Bogus votes were cast even before genuine voters arrived, while police assisted TDP workers and carried out lathi-charges at several places. A YSRCP councillor candidate was forcibly taken away in a police jeep.

The YSRCP chief said some journalists and cameramen, who were recording electoral irregularities, were attacked, while cameras and mobile phones were damaged. Even voters staging protests after being denied their right to vote were ignored. Similar conditions were prevailing in Kadapa, Jammalamadugu, Chittoor, Macherla, Chilakaluripet, Tadipatri, Madanapalle, Chimakurthy and Kuppam, he said.

YS Jagan questioned Chief Minister Chandrababu Naidu, the State Election Commission, Collectors and SPs over the dangerous precedent being created. If the ruling party itself destroys the election process today, another party could use the same methods tomorrow, eventually making genuine elections impossible, he warned.

He said Chandrababu had no moral right to continue as Chief Minister even for a day if democracy was reduced to such a mockery. Though nearly 1,000 police personnel were deployed in Pulivendula, hundreds of TDP workers were allowed to remain around polling booths without action. Despite repeated calls to the SP and Collector, no corrective steps were taken. YS Jagan also questioned compliance with Supreme Court directions on CCTV surveillance and asked how polling could be called transparent without live CCTV footage from polling stations.

He said even his journey to Pulivendula was obstructed. Permission granted the previous day for his helicopter to land was withdrawn after the helicopter had already taken off from Bengaluru, with authorities insisting that he arrive only after 3 p.m. After Civil Aviation authorities objected to the cancellation of landing permission while the helicopter was already in the air, the landing was finally permitted.

YS Jagan said democracy was in a dangerous condition when institutions meant to protect citizens themselves acted against them. He warned that when people lose faith in democratic institutions, extremist tendencies emerge. The YSRCP chief said the government should question why such measures were necessary if its administration enjoyed public confidence. Super Six and Super Seven promises had not been implemented, while the bonds distributed to people before the elections had become meaningless. Students were suffering without fee reimbursement; Vidya Deevena and Vasathi Deevena, employees, were dissatisfied over unfulfilled manifesto promises; women had lost the zero-interest scheme and farmers were struggling without remunerative prices. “No section of society is happy with Chandrababu. That is why they are afraid of free elections and are trying to bulldoze the electoral process instead of facing the people,” YS Jagan said.

Labour and Employment Minister Mandaviya launches EPFO services through WhatsApp

New Delhi, Nov 2 : Union Labour & Employment Minister Mansukh Mandaviya on Monday launched EPFO's WhatsApp service to enable EPF subscribers to access their PF balance, latest five transactions, and passbook information.

Besides, they will also receive personalised guidance and assistance in completing PMVBRY-related requirements.

Addressing the 74th Foundation Day celebration of the Employees' Provident Fund Organisation (EPFO) here, the minister said the WhatsApp service will make routine services accessible through a familiar mobile platform and reduce the need to visit EPFO offices. Besides, subscribers with Aadhaar-verified inoperative EPF accounts with balances up to Rs 1,000 will not be required to file individual claims, and the EPFO will initiate settlement automatically after prescribed identity and bank-account verification, facilitating transfer of eligible dues to rightful beneficiaries. Approximately one lakh accounts involving Rs 5 crore are expected to benefit.

Mandaviya highlighted that over its 74-year journey, EPFO has emerged as a trusted institution for the workforce of the country. He noted that the trust reposed in the Organisation is reflected in the Rs 32 lakh crore corpus accumulated through contributions from more than 8 crore members, made possible by the dedication, hard work and commitment of the EPFO workforce.

Commending the relentless efforts behind technological transformations like CITES 2.01, the minister called upon every official to focus on the welfare of the worker at the last mile. He urged officials to focus on worker-centric innovations across domains in the run-up to EPFO's 75th year, adapting, building resilience, and evolving processes in tandem with changing times. The impact of EPFO's technological transformation through CITES 2.01 was also showcased on the occasion. A significant improvement in claim settlement was highlighted, with the average settlement time declining to 2.57 days in October 2026. The improvement reflects the Organisation's continuing efforts to make access to provident fund savings faster and more convenient for members. Seven publications were also released on the occasion, reflecting the EPFO's commitment to knowledge creation, institutional learning, legal awareness and compassionate governance.

Secretary, Labour & Employment, Chandra Bhushan Kumar emphasised that social protection and labour reforms must reach not just the organised sector.

Colombo, Nov 2 : Almost half a tonne of crystal methamphetamine was seized, and several suspects, including Pakistani nationals, were arrested during a joint counternarcotics operation carried out by the United States and Sri Lanka.

In a statement, the US Embassy in Sri Lanka said that the US Drug Enforcement Administration’s (DEA) New Delhi Country Office and Sri Lanka’s Police Narcotics Bureau (PNB) carried out a successful joint operation disrupting a Pakistan-based narcotrafficking network trying to smuggle crystal methamphetamine through Sri Lanka to international markets. It said that approximately 463 kg of crystal methamphetamine worth USD 21 million was hidden in bath towels.

"Acting on intelligence developed by DEA’s Foreign Counterparts Unit Pakistan Anti-Narcotics Force Special Investigations Cell between August 14–29 on suspicious maritime containers moving from Pakistan to Colombo, PNB seized approximately 463 kg of crystal methamphetamine — valued at USD 21 million — concealed in bath towels, and arrested several suspects, including Pakistani nationals.

This operation underscores the strength of the US-Sri Lanka partnership in dismantling transnational criminal organisations that fund terrorism and threaten communities in both our countries."

IMF backs free trade despite tariffs

Washington, Nov 2 : The International Monetary Fund (IMF) on Monday reaffirmed its support for free trade and open markets despite growing tariff barriers and rising economic nationalism, saying global trade remains essential for raising living standards and reducing poverty, even as it acknowledged that the gains from globalisation have not been shared equally. Speaking at the IMF's regular press briefing, Julie Kozack, Director of the IMF's Communications Department, said the Fund's long-standing position in favour of open markets remains unchanged despite an increasingly protectionist global trading envi-

Newlyweds among 31 hospitalised after suspected food poisoning at Mumbai wedding

Mumbai, Nov 2 : At least 31 people, including the bride and groom, have been hospitalised after reportedly suffering from suspected food poisoning during a wedding ceremony in Mumbai's Nahur West area, officials said on Monday.

According to Deputy Commissioner of Police (DCP) Abhay Singh Deshmukh, the wedding ceremony was held on November 1 at Nalanda Buddha Vihar Hall in Nahur West, with approximately 400 to 500 guests attending the event.

He said that around 70 to 100 guests, who had their meals in the final round, reportedly fell ill after consuming the food. Following complaints of illness and discomfort, several guests were taken to nearby hospitals for medical attention.

Officials said 22 affected individuals have been admitted to MT Agarwal Hospital in Mulund, four young children to Kamgar Hospital in Mulund, and five others are receiving treatment at a hospital in Vikhroli.

"Currently, all patients are in stable condition and are undergoing medical treatment. Relevant agencies are monitoring the situation and taking necessary action," officials said.

One of the people admitted to the hospital told IANS, "The wedding took place at the Nalanda Buddha Vihar Hall. Towards the end, when we sat down to eat, along with the bride and groom, everyone fell ill. About 30 to 40 people from our neighbourhood were there, and all of them became unwell. Everyone had to be admitted to the hospital. Action must be taken regarding this." The groom's maternal uncle, who also spoke to IANS, said the guests had consumed food at around 4 p.m. to 4.30 p.m. but began experiencing symptoms after returning home later in the evening.

"Once we reached home, by 11:00–11:30 p.m., everyone started vomiting. The bride was the first to fall ill," he said. "I believe at least 30–40 people from our own group have been affected by food poisoning. This number could rise further; patients are still arriving. Some have been taken to Kamgar Hospital, some to a facility near the Metro, and others have been sent to Vikhroli," he added. Demanding strict action against those responsible, the groom's maternal uncle said the caterers and food suppliers should be held accountable for the suspected food poisoning.

He also called for an enquiry into the role of the committee managing the wedding venue. A friend of the groom said that although all the patients were currently reported to be stable.

'We have to get the Senate': Trump makes final push before midterms

Washington, Nov 2 : President Donald Trump made a final push for Republican control of the Senate two days before Tuesday's midterm elections, telling reporters "We have to get the Senate" as he campaigned in Iowa and Kansas.

Trump spoke to the travelling press pool after landing in Dubuque, Iowa, flanked by House Speaker Mike Johnson and Interior Secretary Doug Burgum. "We have to get the Senate. We can't allow the Muslim Brotherhood," Trump said. He said that "when they have one or two, three votes, they basically assume control of the party" "The party has to go along with them. They have to blackmail the party and extort the party," he said. Trump said he was in the Midwest for Senate candidates Ashley Hinson in Iowa and Roger Marshall in Kansas. "We have to make sure that Roger gets in, and we have to make sure that Ashley gets in. And I think we'll do that," he said.

Earlier in the day, Trump posted on X that he was "Heading to lowa, and then, so importantly, Kansas (Will be my last stop!)" to back "Ashley Hinson for Senate and Zach Lahn for Governor in lowa, and Roger Marshall for Senate and Ty Masterson for Governor". Trump also welcomed Democratic Congresswoman Haley Stevens' endorsement of Republican Mike Rogers in the Michigan Senate race against Democrat Abdul El-Sayed. The pool reported that Trump called the endorsement "a smart thing" "Nobody expected that, but it's a smart thing to do because El Sayad

would destroy our country," Trump said. Asked if he would reach out to Stevens, Trump said: "Not much to reach out. Just call her, thank her, and say she did the right thing." Asked whether she should become a Republican, he said: "Love to have her." Johnson said he had spoken to Stevens. "This is a contrast election between common sense and crazy, and there is no crazier choice on the ballot than El Sayed," Johnson said. Johnson said Stevens and her fiance had been "getting a lot of threats". Trump said "I'd say she's in danger" and that "she was very brave doing it".

Trump said there had never been anything like his midterm campaign. "We have sold out arenas everywhere. We haven't had an empty seat," he said.

Trump also said he had a "very good talk" with Israeli Prime Minister Benjamin Netanyahu. "Just had a very good talk with him," he said when asked about the conversation. The pool reported the two leaders discussed the war. The White House has not issued a readout of the call. Netanyahu is pressing Trump to strike Iran immediately after Tuesday's midterm elections, Axios reported on Sunday, citing one Israeli and one US source. Trump, for now, wants to let negotiations play out, the report said.

Two more provinces affected as DR Congo Ebola outbreak remains 'very active': Health Minister

Kinshasa, Nov 2 : The ongoing Ebola outbreak in the Democratic Republic of the Congo (DRC) has now affected the provinces of Tshopo and Haut-Uele, as the epidemic remains in a "very active" phase, Health Minister Roger Kamba said on Monday. Health authorities have observed patients moving from affected areas toward Kisangani, the capital of Tshopo Province, and the Wamba area in Haut-Uele Province, bringing the two provinces into the scope of the outbreak response, Kamba said in Bunia, the provincial capital of Ituri, which is the epicentre of the outbreak.

"We are still in an active, even very active, phase of the disease," Kamba said while reviewing the national response. Given the high population density, strong mobility, and local factors complicating community engagement in affected areas, he said it was still impossible to determine when the outbreak would reach its peak.

Kamba made the comments in a video provided Thursday by the health ministry during his visit to Bunia, capital of the eastern Ituri Province, Xinhua news agency reported. According to Kamba, Ituri remains in an acute growth phase of the outbreak, while North Kivu Province is also still seeing an active increase in cases.

N. Korean troops in Russia will end up as 'cannon fodder' : S. Korean envoy

Seoul, Nov 2 : South Korea's top envoy to the United Nations has criticised North Korea's "dispatch of its troops to Russia", saying they will be used as mere "cannon fodder", while their wages will end up in the pockets of North Korea's leader Kim Jong-un.

Ambassador Hwang Joon-kook made the remarks at a UN Security Council (UNSC) session in New York on Monday (local time), after South Korea confirmed that some North Korean troops have been sent to Russia's western region near the border with Ukraine, Yonhap news agency reported. "As legitimate military targets, they will end up as mere cannon fodder, while the wages they are supposed to receive from Russia will end up squarely in Kim Jong-un's pocket," he said. "Pyongyang's treatment of its young soldiers, its own people, as expendable will be never forgiven." Hwang said any activities entailed with the North's troop dispatch to Russia are "clear" violations of multiple UNSC resolutions, noting that Pyongyang's "unprecedented" military support to Moscow.

Karnataka to provide 7 pc quota in professional education for rural govt school students

Bengaluru, Nov 2 : Karnataka Chief Minister D.K. Shivakumar on Monday announced that students who have studied in government schools in rural areas will be provided seven per cent reservation in professional education, including engineering and medical courses, while expressing confidence that the Congress-led protest scheduled in Delhi to protect voting rights would be successful. "Every voter's right must be protected, and it is the responsibility of all of us," Shivakumar said while responding to questions from the media at his Sadashivanagar residence and near the Bhuvaneshwari Devi statue at the Vidhana Soudha here.
Addressing the 71st Kannada Rajyotsava celebrations at Kanteerava Stadium, the Chief Minister added that the reservation was intended to provide greater opportunities for rural government school students to pursue professional education. "The state government was transforming schools at the panchayat level to match the standards of urban schools. Orders had already been issued for the recruitment of 15,000 teachers, while 25,498 bilingual schools had been started across Karnataka. Science laboratories had also been established in 250 government schools," Shivakumar said. "Skill-based education had been introduced from Class 6, while artificial intelligence training would be provided to students from Class 6 onwards and continued up to Class 12. The state government was also utilising Corporate Social Responsibility (CSR) funds for the development of government schools and upgrading Karnataka public schools," he added. Shivakumar said that Kannada should not remain merely an official language but become the language of people's hearts. "Children must first learn Kannada and use it in their daily lives, even as they prepare to compete globally." "Language has no boundaries. In the digital age, we can use all languages on mobile phones. Amid competition between languages, Kannada must grow. If we love our language, it will protect us," Shivakumar added.
He urged students to develop interests in sports, arts and literature alongside academics. Highlighting the state government's initiatives for sportspersons, Shivakumar said Karnataka athletes had won eight medals at the Asian Games.

Pune: CARA promotes adoption of children with special needs

Pune, Nov 2 : Looking to promote family-based care and adoption of children with special needs, the Central Adoption Resource Authority (CARA) organised its Fourth Regional Consultative Workshop for the Western Zone in Pune, an official said on Monday. Addressing the gathering, Bhavna Saxena, CARA CEO and Member Secretary, emphasised sustained and collaborative efforts to increase the adoption of children with special needs, an official statement said.
She highlighted that CARA's series of outreach and consultative initiatives, under the aegis of the Ministry of Women and Child Development have contributed to strengthening the adoption ecosystem. She stressed the importance of continuing rigorous and coordinated efforts to further expand opportunities for children with special needs to receive permanent family-based care.
The workshop brought together officials and stakeholders from State Adoption Resource Agencies (SARAs), Specialised Adoption Agencies (SAAs), Child Care Institutions (CCIs), District Child Protection Units (DCPUs), Chief Medical Officers (CMOs), medical and healthcare professionals, and child protection experts.
Their participation facilitated a multi-sectoral dialogue on strengthening adoption processes and enhancing support mechanisms for children with special needs, the statement said.
The deliberations focused on the current status of adoption of children with special needs across the Western Zone, sharing of successful practices and case studies, and identification of challenges affecting the adoption and rehabilitation process.
"Participants discussed issues relating to medical assessments, legal and procedural requirements, financial considerations, grievance redressal and inter-departmental coordination," the statement said."Particular emphasis was placed on strengthening coordination between child protection and healthcare systems to ensure timely assessment, appropriate support and smoother facilitation of adoption," it added. India hosts half of the world's GCCs, emerges as second-largest hub for enterprise AI talent: CEA

New Delhi, Nov 2 : India now hosts around half of the world's Global Capability Centres (GCCs) and has emerged as the second-largest base for enterprise artificial intelligence (AI) talent globally, reflecting the country's growing role in innovation, technology and high-value global business operations, Chief Economic Adviser (CEA) V. Anantha Nageswaran said on Monday.

Addressing the CII GCC Business Summit, Nageswaran said India's GCC ecosystem has undergone a remarkable transformation over the past two decades, evolving from a handful of back-office operations into more than 2,000 centres employing over 2 million professionals.

He said employment in the sector is now moving towards 2.3 million, while annual revenues have exceeded $60 billion and are on track to approach $100 billion.

"India now hosts around half of the world's GCCs. This did not happen by accident; it happened because of our people, because talent is the heart of the matter," Nageswaran stated. "These centers first came to India for cost; they stayed for capability," he mentioned.

The CEA said GCCs now contribute nearly 2 per cent of India's gross domestic product (GDP) and account for a significant share of new office space developed across major Indian cities. He noted that no other country comes close to India's scale, with around half of the world's GCCs now operating from the country. Explaining the evolution of the sector, Nageswaran said Indian GCCs have moved far beyond their traditional role of providing cost-efficient back-office support. Today, they undertake high-value work across technology, engineering, research, product development, analytics and digital transformation. He said global banks manage risk systems and trading platforms from Mumbai and Bengaluru, automobile manufacturers design vehicles and embedded systems from Chennai and Pune, semiconductor firms carry out chip design in India, pharmaceutical companies conduct clinical analytics.

Volkswagen to cut at least 1 lakh jobs by 2030 in cost cutting measures

Mumbai, Nov 2 : German car manufacturer Volkswagen has announced to cut 1 lakh jobs by the end of the decade in a sweeping cost-cutting plan, marking the largest restructuring in the global auto industry. The German carmaker announced a further reduction of about 50,000 positions on top of nearly 50,000 job cuts already agreed, amounting to about 15 per cent of the group's workforce.

The company decided to halve the number of car models the Volkswagen group produces, which includes the Bentley and Audi brands, and considers to shut down four production plants in Germany within the next eight years. "Given intensifying global competition, shifting demand and technological change in the automotive industry, a consistent alignment of workforce capacity with economic reality is essential," the Volkswagen Group said in a statement. Volkswagen employs over 6.5 lakh people across brands including Skoda, Seat, Porsche, Cupra and Lamborghini. The group plans to streamline its model portfolio by around 50 percent and reduce its offering complexity by around 75 percent by 2035. "The prioritised models aim to excel in design and technology – and benefit from the focus on fewer variants: Higher volumes per model, lower costs, stronger economies of scale," the statement said. The Volkswagen Group is systematically tailoring its platforms, electronic architectures, driver assistance systems and software to the needs of both the Western and Eastern hemisphere, it added. In North America, the Volkswagen Group will focus on the most profitable segments. In China, the Group is adapting to revised expectations for overall growth in the Chinese automotive market and is expanding its export business toward the "Global South," the statement added.

'Ayodhya's Deepotsav showcasing values of sacrifice, dignity and dedication on global stage': CM Yogi

Lucknow, Nov 2 : Uttar Pradesh Chief Minister Yogi Adityanath on Monday said that Ayodhya's Deepotsav is showcasing the values of sacrifice, dignity and dedication on the global stage, while describing the festival as a celebration of India's eternal consciousness and cultural pride.

In a special message titled 'Yogi Ki Pati' (Yogi's Letter), the Chief Minister said that Ayodhya, regarded as the foremost among the seven sacred cities, was eagerly awaiting its 10th grand and divine Deepotsav.

"Deepotsav symbolises the journey from darkness to light, despair to hope, and faith to development. It is not merely a festival of lighting lamps, but a grand celebration of the revival of India's eternal consciousness and cultural pride," he said. Extending his heartfelt wishes to the people on the auspicious occasion associated with the return of Lord Shri Ram to Ayodhya, CM Yogi said that even a small flame teaches that a ray of light can spread new hope even in the deepest darkness. Highlighting the deeper significance of

the festival, the Chief Minister said that India's eternal connection with Deepotsav was rooted not merely in traditions but also in the values that guide life.

Referring to Bharat's devotion and sacrifice during Lord Ram's 14-year exile, he recalled how Bharat renounced royal comforts and governed Ayodhya by placing Lord Ram's sacred footwear on the throne. "This inspiring episode from the Ramayana teaches us that the true meaning of power is not authority, but responsibility," he said. "Ayodhya's Deepotsav is showcasing the values of sacrifice, dignity and dedication on the global stage."

Describing the celebrations, CM Yogi said the rows of lamps along the banks of the Saryu and the illumination of Ram Ki Paidi with lakhs of earthen lamps created an enchanting spectacle, as if the Milky Way had descended upon Ayodhya. Drone-based aerial presentations and the participation of artists further added to the divine grandeur of the festival, he said.

K'taka: BJP objects to mass filling of SIR Enumeration Forms at religious places

Bengaluru, Nov 2 : BJP National General Secretary and Karnataka in-charge Radhamohan Das Agrawal on Monday objected to the alleged mass filling of Special Intensive Revision (SIR) enumeration forms at religious places and locations identified by Congress leaders, calling the practice inappropriate. Addressing a press conference at the BJP's state headquarters, Jagannath Bhavan, in Bengaluru, Agrawal alleged that the Congress was attempting to use the SIR exercise for political purposes.

"Enumeration forms are being filled collectively at religious places and at locations suggested by Congress leaders. This is not the correct procedure," he said.

Agrawal said the BJP had lodged a complaint with the Election Commission alleging that Booth Level Officers (BLOs) were not visiting households as mandated.

"The Election Commission has clearly instructed BLOs to distribute the forms by visiting every household. We have raised this issue with the Commission," he said.

He added that the BJP had conducted meetings and training sessions for its Booth Level Agent-2 (BLA-2) workers to ensure they were prepared for the SIR process.

Criticising the state government, Agrawal alleged that it was not utilising BJP-appointed BLA-2 workers. Responding to another question, he said internal party matters had been

discussed with elected representatives.

Taking a swipe at Karnataka Minister Priyank Kharge, Agrawal said: "No one is paying attention to what Priyank Kharge says. Even his remarks on the issue of kumkum were not appropriate." It can be noted that Karnataka Home Minister Priyank Kharge sparked a political controversy by claiming that "90 per cent of kesar comes from Islamic countries" while questioning the use of a tilak. On reports of cross-voting, Agrawal said appropriate action would be taken against those responsible. "There is continuous coordination between the BJP and the JD(S). We remain in regular touch and discussions are ongoing. A coordination committee has been formed, and BJP state president B.Y. Vijayendra, Leader of the Opposition R. Ashoka, and Union Minister Pralhad Joshi are members of the committee," he said.

Maha govt prioritises long term measures to stabilise onion prices, focuses on processing industry

Mumbai, Nov 2 : Maharashtra Marketing Minister Jaykumar Rawal said on Monday that the state government has implemented various measures to provide relief to onion growers during periods of price drops, with a strong focus on increasing processing industries, expanding storage capacity, and encouraging crop diversification.

He was replying to a discussion initiated by member Vikram Kale regarding the falling onion prices in the state. Key members, including Pravin Darekar, Satej Patil, and Neelam Gorhe, among others, participated in the debate.

In response, Chief Minister Devendra Fadnavis took the initiative to hold a high-level meeting with the Central government. "Following this meeting, key decisions were made to increase onion procurement targets, implement export incentive measures, and hike procurement prices," the Chief Minister added.

Maharashtra leads the country in onion production, contributing a major share to India's total output. Given the consistently rising production, Minister Rawal said that the state government is actively planning to promote onion processing industries, dehydration plants, and onion powder manufacturing units. "To prevent post-

harvest losses, a large number of onion storage structures have already been set up across the state. Moving forward, the state government aims to establish regional onion processing centres through Farmer Producer Organisations (FPOs) at both the taluka and district levels," the Minister added. He concluded by noting that during past price crashes, the state government directly credited subsidies into farmers' bank accounts across multiple phases.

He assured that current market rates for onions are satisfactory, and the state government remains committed to continuous measures ensuring stable returns for farmers. Meanwhile, State Co-operation Minister Babasaheb Patil told the Legislative Council during Question Hour that sugar mills across Maharashtra have cleared 99.26 per cent of the Fair and Remunerative Price (FRP) owed to sugarcane farmers.

They stressed the importance of pursuing diplomacy and maintaining contacts and coordination to address regional issues and prevent further escalation, the statement said. Have degrees, but no jobs: China's educated youth face grim employment crisis

Male, Nov 2 : China's graduate employment crisis has emerged as one of the most significant socioeconomic challenges facing the country. The situation reflects a growing problem of credential inflation, with a bachelor's degree that once offered the promise of a comfortable career no longer being sufficient to secure a good job, a report has stated.

Even master's and doctoral degrees are increasingly failing to provide graduates with a competitive edge in the job market. As a result, many graduates are finding that years of academic achievement often carry less weight than practical work experience, internships and industry connections, a report in 'Maldives Insight' detailed.

"For decades, China sold its young people a powerful promise: study hard, secure admission to a prestigious university, earn an advanced degree, and prosperity will follow. Today, that social contract is under unprecedented strain. Across the country, millions of graduates who sacrificed their childhoods to excel in one of the world's most competitive education systems are entering a labour market that increasingly has no place for them," the report mentioned. "The result is not merely an employment crisis. It is a crisis of confidence, expectations, and social stability. China's graduate employment challenge has reached a historic scale.

After Bangladesh, China in renewed Nepal outreach for further influence in South Asia

New Delhi, Nov 2 : China now appears to be trying to re-establish its influence in Nepal after a Bangladesh foray, with new promises of economic assistance and infrastructure development.

With China's Vice Minister for Commerce Yan Dong's Kathmandu visit this week, the message was unmistakable.

Beijing wants deeper economic ties, faster project delivery, and formal safeguards for its investors.

This followed Nepal Foreign Minister Shisir Khanal's meeting with his Chinese counterpart Wang Yi in Beijing last month. It marked the Himalayan nation's first diplomatic visit to China since a new government assumed office in Kathmandu earlier this year.

Incidentally, Khanal's Beijing trip followed his India visit, underscoring Kathmandu's dual engagement strategy.

Extremists influence grows, minorities fear to stand up for rights in Pakistan: Brother of murdered Christian minister

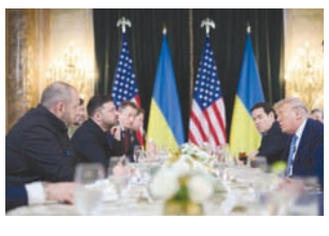

Islamabad, Nov 2 : Paul Bhatti, brother of a murdered Christian human rights activist and former government Minister, has highlighted how the influence of Islamic extremists in Pakistan has increased, and religious minorities fear to stand up for their rights, a report said.

Shahbaz Bhatti became Pakistan's Federal Minister for Minority Affairs in 2008 and was the only Christian in the Cabinet. During his tenure as Minister, he expressed support for Christians who were attacked during the 2009 Gojra riots and for a Christian woman sentenced to death for blasphemy in Pakistan.

Bhatti's support for the rights of Christians resulted in him facing death threats, and he was murdered in 2011, according to a report in Christian Today. In his address at the launch of a report on persecuted Christians produced by Catholic charity Aid to the Church in Need (ACN), Paul Bhatti said that many human rights activists after the murder of Shahbaz Bhatti have become silent as they fear extremists might target them.

Lasting solution to Southeast Asia's haze crisis requires stronger national action: Report

Jakarta, Nov 2 : ASEAN can serve as a key platform for coordinating regional efforts and providing technical assistance to address the recurring haze crisis, but it cannot be the sole mechanism for delivering a lasting solution, a report has stated. It noted that long-term progress would also depend on individual member governments taking responsibility and strengthening measures within their respective domestic legal frameworks. "Every few years the same grey settles over the region, and almost identical script is repeated, where concerns are raised, and actions are promised, but impact has been scarce. When domestic or bilateral actions are limited, ASEAN is seen as the convenient platform to be seen where at least efforts are made to address the long-held conundrum," a report in Eurasia Review stated.

"But this risks the mechanism being used as a feel-good factor, without the real structural and systemic changes and solutions needed.

Australia expands subsidised access to medicines for cystic fibrosis, cancer, thyroid disease

Canberra, Nov 2 : The Australian government has expanded access to subsidised medicines for patients with cystic fibrosis, blood cancer and thyroid eye disease under the country's Pharmaceutical Benefits Scheme (PBS), Health Minister Mark Butler said on Sunday.

Under the changes taking effect on November 1, children aged six to 11 with cystic fibrosis who weigh less than 30 kg will be eligible for a granule form of Trikafta, a medicine targeting the underlying cause of the genetic condition.

The new formulation is designed to help children who have difficulty swallowing tablets. About 3,300 Australians are expected to benefit from the expanded listing each year, according to a government statement, Xinhua News Agency reported.

Without PBS subsidies, the treatment could cost patients more than 20,300 Australian dollars (about 14,200 US dollars) per prescription.

The government has also added Tepezza to the PBS as a treatment for active, moderate-to-severe thyroid eye disease, with around 310 Australians expected to benefit annually.

Meanwhile, subsidised access to Adcetris has been expanded to provide a new first-line treatment option for patients with advanced CD30-positive classical Hodgkin lymphoma, a type of blood cancer, benefiting an estimated 370 Australians each year.

The PBS listing for Repatha, a medicine used to treat high cholesterol, has also been amended to allow eligible patients to obtain larger quantities under the government's 60-day prescription initiative.

Under the PBS, eligible patients will pay a maximum of 25 Australian dollars per prescription, or 7.70 Australian dollars for concession card holders.

The government said it has approved additional funding for 511 new and amended PBS listings since July 2022.

No Iran talks until ship attacks stop: US

Washington, Nov 2 : The United States will not hold negotiations with Iran until Tehran stops attacking commercial ships, Vice-President J.D. Vance has said, warning that Washington could use economic, military, diplomatic and covert pressure to protect global energy supplies and prevent Iran from rebuilding its nuclear programme.

"The President's been very clear, we're not talking to them and we're not going to talk to them unless they stop shooting at commercial shipping," Vance told a White House press briefing.

He said the United States would not set a deadline for ending its operations because their duration depended on Iran's conduct in the Strait of Hormuz.

"We're not going to set an artificial timeline," Vance said, arguing that disclosing a timetable would be irresponsible while Iran continued threatening oil and gas vessels. Vance rejected descriptions of the situation as an ongoing war. He said major combat operations were no longer taking place and the immediate US objective was to maintain the flow of energy through the strait.

"The Iranians would like zero million barrels to come out of the Strait of Hormuz. Last night, 15 million barrels came out of the Strait of Hormuz," he said. "That's because of the United States of America." Vance said the absence of a global energy crisis reflected US action to protect commercial shipping. He maintained that no other country had the capability to perform that role. He declined to say whether the administration was considering arming Iranian dissidents.

China's Fifth Plenum in global spotlight, concerns raised over 'purges'

New Delhi, Nov 2 : The Fifth Plenary Session of the 20th Central Committee of the Communist Party of China (CPC), which concluded in Beijing on October 29, hogged global limelight as it came ahead of the 2027 leadership transition, as well as owing to the "record low" attendance of the Central Committee members and the alleged expulsion of 33 officials. Multiple reports suggested that out of 376, only 279 members attended the Central Committee meeting while 33 officials were "expelled".

A report in the Nile Post says that this has raised questions about accountability, political loyalty, and the concentration of power under President and General Secretary Xi Jinping, even as the Asian nation prepares for the 2027 leadership transition.

Acknowledging that the Fifth Plenum accounted for a critical moment for the country's political leadership, the report says that the scale of the reported investigations has intensified scrutiny of China's senior leadership.

The report says that the campaign has become a central component of Xi's broader approach to party building, which places considerable emphasis on ideological conformity, organisational discipline, and the selection of officials who implement central directives. As the party prepares for its 2027 Congress, investigations and disciplinary decisions could influence the composition of the next generation of leaders. The newspaper report further says that the challenge.

China bigger threat than USSR: Ex-US Defence Secy

Washington, Nov 2 : Former US Defence Secretary Robert Gates has warned that the United States is facing one of the most dangerous periods in its modern history, saying that China poses a broader and more formidable challenge than the Soviet Union ever did. Gates told CBS News on Monday that the US was confronting an unprecedented strategic environment shaped by the combined challenge of China and Russia, both nuclear-armed powers increasingly aligned against Washington.

"For the first time in our history, we face nuclear-armed adversaries in both Europe and Asia," he said.

He warned that China's rapid military modernisation, technological rise and industrial strength had created a strategic challenge unlike any previous American rival. "We have not faced a country that was as technologically advanced as we are, ahead of us in a few areas, behind us in a few areas, pretty much even with us in a few others," Gates said.

The former Pentagon Chief said China's global reach now extends well beyond military competition.

"So whether it's strategic communications or development assistance or trade or whatever, the Chinese are all over the world dealing with these things," he added. Gates made the remarks after President Donald Trump returned from a summit in Beijing with Chinese President Xi Jinping. Trump had referred to the US and China as a possible "new G2", suggesting the two countries were the world's dominant powers.

Gates said China was approaching US power levels but had not yet surpassed America economically or militarily.

"I think our military power is greater than theirs, although they're catching up," the former Pentagon Chief said, while noting that China was already ahead in shipbuilding capacity. Much of the interview focused on Taiwan and rising tensions in the Indo-Pacific. Gates urged the Trump administration to move ahead with delayed arms sales to Taiwan, saying Washington needed to reinforce deterrence against Beijing. "I think we should go forward with what we've agreed with Taiwan," he said.

'You made whole country happy': Sinner congratulates Antonelli on winning 2026 F1 title

New Delhi, Nov 2 : Italian tennis star Jannik Sinner congratulated fellow countryman Kimi Antonelli on becoming the youngest-ever Formula 1 world champion with a special message.

The 20-year-old broke Sebastian Vettel's record of the youngest F1 champion when he secured the 2026 title with a third-place finish at the Mexico Grand Prix, with still four races to go.

Speaking in a video shared by F1, Sinner congratulated Antonelli's historic title win. "Kimi, you are the new world champion of this year, and it sounds amazing. Antonelli was down in tears after he crossed the line in P3 in Mexico, which was more than enough for him to seal the drivers' title.

2nd Unofficial Test: NZ A's lower order frustrates India after Mukesh, Siraj heroics

India A's bowlers were made to work hard for their wickets as New Zealand A's lower order turned the contest around on Day 3 of the second unofficial Test at Hagley Oval, stretching their first-innings total to 424 and securing a 78-run lead on Monday. India A reached 32 for no loss in their second innings at stumps, with Yashasvi Jaiswal and B Sai Sudharsan reducing the deficit to 46. The day had begun with New Zealand A firmly placed at 218/3, but Mohammed Siraj wasted little time in breaking the resistance, dismissing Matthew Boyle for 110 with the first delivery of the morning. Devdutt Padikkal pulled off a sharp one-handed catch at slip to bring an end to the 208-run partnership. Pakistan fined for slow over-rate in tri-series final against Sri Lanka

Dubai, Nov 2 : Pakistan have been fined five per cent of their match fee for maintaining a slow over-rate in ODI Tri-Series final against Sri Lanka in Lahore. The sanction was imposed by Jeff Crowe of the Emirates ICC Elite Panel of Match Referees after Pakistan were found to have bowled one over short of the required quota within the stipulated time, even after accounting for time allowances.

Pakistan captain Shaheen Shah Afridi pleaded guilty to the offence and accepted the proposed penalty, avoiding the need for a formal hearing. 'We walk away in a stronger position': McDonald backs Australia batting unit despite SA thrashing

New Delhi, Nov 2 : Australia head coach Andrew McDonald has backed his team's batting unit despite consecutive collapses against South Africa, insisting the visitors have reasons to remain optimistic following their series defeat in Cape Town.

McDonald also expressed confidence that Steve Smith would return for the upcoming home Test series against New Zealand, with Australia keen to resolve the batter's neck problem ahead of a demanding international schedule.

With Cameron Green returning from injury and Josh Inglis strengthening his case with another away Test, Australia could explore different batting combinations before the New Zealand series. McDonald believes the experience gained in difficult overseas conditions could ultimately benefit his side.

"It's still a very good cricket team with a lot of very good players in there, and some … (who) will be acknowledged as legends of the game. We've got to balance that out with who comes in, what the next decisions are. If you looked at the batting unit, I think we walk away in a stronger position (than at the start of the South Africa tour).
